*A time on my hands creation  
Ally Tate*

Ally Tate: I have always loved art and always had an interest in sketching. Early 2008 I began sketching again after a considerable interval, and a little encouragement from friends. This fired up both the interest and skill. Over the year my skills have developed. I started selling work to friends and family as well as online galleries and contacts made through face book. I have undertaken a number of successful commissions and have a growing catalogue of originals for sale. I am currently planning my first exhibit. The subject matter I tackle is varied however I prefer animal pictures (wildlife and pets), and hope to eventually specialize in equestrian work. I have also some landscapes of local interest in my collection Examples can be seen on my website. My preferred media is pencil I also work with pastel and more recently watercolour. I have a realistic style with often only minimal background, sufficient to provide the subject with context or perspective.
